Hi Ashok,

Just wanted to provide some input to Joan's focal.

As I've expressed to you in person, Joan has been doing a great job. She's been eager to help me make information available at the Product team level and R&D review level. She's been very helpful and responsive to requests and added great ideas to make the web-sites more robust.

Further, Joan's been instrumental in setting up the partners page and making it a very useful tool for doing program reviews with them. In both cases, Joan has made the teams more productive - saving hours of downloading files and long discussions of which file we're reviewing.

Overall, I enjoyed Joan's get-it-done attitude, her timely responses to the requests for updates on short notice and teamwork (all too rare in this group). I give her an A+ for her efforts.

Thanks.
